COMMERCIAL.

There is nothing of especial interest to note in the commercial situation this week, if we except the want of confirmation of the rumor current a few weeks ago that our washed sugars were to be made dutiable at San Francisco. Inquiries at the Custom House of that port, says Williams, Blanchard & Co's Circular of September 28, resulted in the information that no instructions to that

The Custom House returns for the quarter ending September 30, prepared by the Collector-General, Col Allen, and which we lay before our readers to-day, show an important gain in our exports for the quarter, and also for the nine months ending at the same date. Our business men will be gratified in noting the figures, for the gains are so much added to the material interests of the

vertising patrons will please notice, and will be adhered to from this date. All accounts now due and owing the ADVERTISER Printing Office must be paid to me, and all accounts against the ADVER-TISER Printing Office must be presented to me for settlement.

J. H. BLACK, Publisher and Proprietor. Honolulu, Sept. 2d, 1878.

J. C. GLADE, Esq., German Consul, had a private audience of His Majesty this week, on which occasion he presented an autograph letter from the Crown Prince of Germany, acknowledging the receipt of His Hawaiian Majesty's letter of congratulation to the Emperor on his recent escape from assassination.

THROUGH the courtesy of His Excellency the

Minister of Finance we are enabled to lav before our readers to-day the table of principal domestic exports for the third quarter of the present year, as compiled by Col. Allen, the Collector General of Customs. A glance at this table will exhibit the gratifying fact that in the export of the staple articles of produce we are steadily progressing, both as to quantities and values. For the nine months ending Sept. 30, as compared with the like period last year, our exports of sugar had increased by 10,381,308 lbs., and of paddy, 1,300,650 lbs.; while the corresponding increase in value was \$766,932. In the minor articles of produce, such as Coffee, Fungus, Goat Skins, Hides, Pulu and Cattle, there has also been an increase. Bananas have notably fallen off, but we anticipate a large increase in the export of this fruit during the coming year, as its | ination, and they could not afford to pay a physicultivation will undoubtedly be stimulated by the facilities for getting to market afforded by steam coasters. The export of rice, for the June quarter showed a decrease of some 38,000 lbs., but now shows an increase last quarter of 507,000 lbs. The culture of rice is carried on very extensively by Chinese on this Island and on Kauai. As soon as Mr. Hopper's rice machinery is in operation we may expect a considerable increase in the export of this article-and free from glass. Coffee-which, owing to the blight that has prevailed in Kona for twenty years, the district whence most of the product comes, and which is superior to any other-appears to be looking up, and shows an increase for the past nine months over the corresponding period last year of 24,612 lbs. Coffee growing is one of the industries which must yet become important in these Islands, as the tree thrives well in all localities, and a plantation can be carried on with a moderate capital. The export of molasses has de-

creased for the quarter, by 19,415 gallons. Im-

proved machinery on most of the sugar estates ex-

not worth much as molasses. The Pulu busi-

ness, which fell off the previous quarter, appears

gration of Portuguese settlers.

In the grand rush for the cultivation of sugar, people in these Islands, it may be well to remem- employed him. ber that a time may come ere long when sugar nampagne, 33 cs salmon, 23 pkgs furniture, 391 pkgs will cease to be so profitable a crop as now, in not becoming to a respectable paper. They only the not i mpossible event of the United States Congress admitting all sugars free of duty, or perhaps declining to renew our treaty in 1883. It is well, therefore, to bethink ourselves of other resources of the country which are yet undeveloped. These are numerous and generally well known, having been often referred to in these columns in past years before sugar became king. The particular one to which we desire to direct attention at present is the sumac or sumach, a plant or shrub of the genus Rhus, the leafy taps of which when dried are used for fessional" in the last number of your journal, I tanning leather. At present pretty much all the desire to offer a few brief remarks. sumac used for tanning in America is imported | The article in question is mostly a tissue of perfrom Sicily, in the Mediterranean Sea, and com- sonal insinuations, gross perversions of fact and mands a high price. In various parts of these wilful and deliberate falsehoods. To take these up above the sea level, sumac is found growing wild waste of time and an insult to the intelligence of in abundance, the genuine article. How or by your readers. Every material point your correswhom it was introduced here is not known, or pondent attempts to make, has been already met whether it is indigenous. The natives call it and fully answered by me in previous communineneleau, and to them it is a nuisance, for once it | cations. gets a hold in the soil it is difficult to eradicate. It is found growing particularly abundant in Kona, Hawaii, below the forest and above the breadfruit line. In Sicily it is carefully cultivated and planted in rows, the shoots cut back | and yearly to within a few inches of the ground. The gathering begins early in July and is continued until late in the autumn. The leafy tops | and argument, over my own signature, they have are broken off and carefully dried, but the best | nothing to offer but personal abuse. are those dried in the shade. They are threshed to separate the leaves from the shoots, and the lie notice whatever of any anonymous attacks, leaves are finally ground between two millstones. We should like to see an experiment made with to indulge in it to their entire satisfaction, without our native sumac in order to ascertain what per- | molestation or hindrance, so far as I am concerned. centage of tannin it contains. Sumac also grows Honolulu, Oct. 7th, 1878. wild in large quantities in the counties of San Anaheim propose to tan their sheep skins with Diego and Los Angelos, California, and we notice by late papers that a tanning company at California sumac alone. Will not some of our friends on Hawaii test our native sumac and report progress?

The Board of Health and the Lepers.

Mr. EDITOR :- The manner in which the Board of Health had lepers removed from this Island last week, demands public comment.

About thirty-four persons, supposed to have the leprosy, were taken summarily from their houses in the District of Wailuku and vicinity, on Friday, by the Police authorities, and the next morning were taken to Maalaca Bay, as they were informed | hard labor for one year without costs. A. S. Hartand believed, to be examined by Dr. McKibbin. The Minister of the Interior and Dr. McKibbin landed from the steamer " Likelike," and after a | Bickerton for defendant. brief examination, thirty of the thirty-four were ordered into the boats, and taken on board the " Likelike," and were taken directly to the Leper

settlement at Molokai that day. Of these thirty persons, some were mothers taken from their families of little children, some were husbands and fathers, and some were children. The Publisher of this Journal gives no-None of them had been previously examined, and tice that the subscription price is \$6.00 per annum. If paid in advance, i. e., within owing to the want of time for preparation, and the deception used, some of them were utterly unprepared to go, not even having their necessary clothing. And not one of them had time to arrange

And now, on the few minutes examination of one physician, those people are practically doomed

Mr. Editor, I denounce the action of the Board of Health in that case as outrageous, cruel, and most impolitic. And from the feeling which has been openly manifested by natives and foreigners, I am led to believe that a repetition of such action would be met with violent resistance. I feel indignant, for the Minister of the Interior knows as well as I do, or ought to know, the gradual and growing opposition which has been manifested among the Hawaiians, during the past year or two, against sending lepers to the settlement at Molokai ; and he knows that the feeling was shared by many of the Hawaiian Representatives at the opening of the late session of the Legislature, and that numer- Caux, Henry ous petitions were addressed to the Legislature from various parts of the group, praying that no more lepers be sent away, but that Hospitals be established on each Island for them.

Every member of the Legislature who was present at the session knows that Hon. W. M. Gibson, the member from Lahaina, did the country valuable service in endeavoring to overcome the opposition thus manifested.

He was no more impressed with the importance of the subject than some other members, but he Gothe, Mrs E M was very instrumental in overcoming the opposition, and securing a larger appropriation than ever before for the care of the lepers. It is well known that Hornback, C Hanley, Mr it was repeatedly urged with all carnestness that more pains should be taken than in the past ; that the following principles should be adopted: There should be a system of registering the names of all supposed to have the disease : that they should then be subjected to treatment, and finally that no one should be sent to Molokai as incurable, except on the decision of not less than three phy-

All of these conditions were based on sound principles, and with the welfare of the country in view, and I have no hesitation in asserting that every intelligent person in the Kingdom who is familiar with the subject will endorse these prin-

But in the action of the Board of Health here last week, every one of these principles have been disregarded.

The Board of Health may say that they had no Government Physician on Maui to make the examcian to take time for it, and that had such an examination been made, some of them would have escaped and concealed themselves.

In the first place the Board of Health should have a physician on Maui; and if they had none, the expense of paying for the special service would have been money well expended, and had some of the lepers escaped, for a time, the evil would have been slight compared to the effect of the course which has been adopted.

The Gazette vs. Hon. W. M. Gibson.

cause that land was too hot to hold him. The Editor in his issue of the 2nd of October says that he will not make any " uugenerous allusions of a personal character." but in the previous tracts about all the sugar, so that the residuum is | number of his paper he has indulged in such allusions to, and insinuations against "the wily Gibson" as too surely show the spirit by which the Editor is guided in his animadversions. Of what use is his disclaimer of ungenerous remarks when he has said all be possibly can to the injury of Mr. Gibson in order to bring him in disrepute, and the to show a very marked advance in the develop- object of his attack thousands o' Piles away !

WE LEARN that the Board of Immigration frame of mind, judging from the writing, is more bas, during the past week, had under considern. like that of some disappointed politician, smarting tion the subject of further efforts to procure im- under defeat and determined at any cost to wreak vengeance on the head of his successful opponent. What has Mr. Gibson done to deserve the spite vented on him! Why refer to Hawthorne's book for his character when the gentleman himself has been before the Hawaiian public for the last twenty and more years? And who knows whether Hawmany of these people as we need, or as our thorne himself, if he have anything to say derogameans will permit us to bear the expense of. tory of Mr. Gibson is worthy of all belief or any? the most sublime and majestic scenes in nature. Planters, it seems, are alive to the advantage,- Who can say that he has not been actuated by The following is going the rounds of the press, and in fact safety,-which will result to their some unworthy motive if he have made some accu- and it is to be haped that the matter will not end estates by the presence on each of a few of these | sation against the gentleman? or that he has not | with the mere suggestion civilized Christian laborers as an offset to the endeavored to make his book more saleable by telling some ridiculous story?

Mr. Gibson being an active and ardent polititrouble and danger. We trust that the Board cian has made enemies for himself in Hawaii; and be formed around Ningara Falls received the hearty enemies here, as elsewhere, are sometimes bitter and unscrupulous. He is an able man, and his ability not being exercised in a certain sphere he must be got rid of if possible. It is a stale story for Hawaii, but one worthy of repetition, if only for the enlightenment of the Editor of the Gazette. this matter of procuring a considerable immi- who is still comparatively a stranger, that money has been offered to men to divulge whatever they knew injurious to his reputation, but the offered bribe found no acceptor : no one could be found to come forward and say that Mr. Gibson had wronged him; but it is a fact that one of his petted detractors aid disappear one day from Hone which just now absorbs the attention of so many | with the contents of the till of the man who had I think therefore, Mr. Editor, that these ungen

crous bints and inuendoes should cease. They are reveal a bitter and unscrupulous animosity that vill not be satisfied, whatever professions to the contrary may be made, otherwise than by rendering a political opponent universally odious. If the Editor of the Gazette can prove anything against the reputation of Mr. Gibson, why does be not let the public know what it is; but we have had hints and insinuations enough, and they have not always terned out happily for those making
